Signature Has Teamed Up With Global Payments!

Atlanta, Georgia, February 9, 2006 – Global Payments Inc. (NYSE:GPN), a leader in electronic payment processing solutions, announced the implementation of a multi-year processing agreement with Los-Angeles based Signature Card Services. Global Payments will provide Signature Card Services with comprehensive transaction processing services, including authorization, capture, and settlement, as well as BIN sponsorship for credit, debit, and Electronic Benefits Transfer (EBT) card processing.

Signature Card Services is a multi-faceted payment solutions provider, combining the latest technology solutions with the highest service-level commitment. Founded in 1997, Signature Card Services continues to diversify and expand its product and service offerings into select new markets, such as the wireless payment processing, small lodging and fast-food restaurant segments. Global Payments has the tool set and flexibility essential for Signature Card Services to rapidly expand its business-specific expertise and strengthen its brand in a growing customer base.

Cliff Teston, Chief Executive Officer of Signature Card Services said, "Signature Card prides itself on its experience, dedicated customer service and online reporting capabilities. Global Payments delivers an ISO Program model that fits perfectly into a mature organization like ours. The ability to interface with our technologies and leverage our combined experience will ensure our merchants have a truly powerful solution."

Chairman, President and CEO of Global Payments Inc., Paul R. Garcia, said, "Signature Card Services is dedicated to providing value-added solutions, through business-specific expertise, to ensure the profitability of its merchants. We applaud their commitment to outstanding customer service and believe that our partnership is an ideal match."

Our new program with Global Payments is up and running, and, combined with our existing FDR and Vital processing options, you can now have it all, in one ISO!
